### **Manners For Smokers**

***Let's show good manners and have consideration for others when you smoke.***

Smoking in the presence of children and pregnant women can be unpleasant for them and also the nicotine from cigarettes can be harmful to their health.

People have the individual right to smoke, but on the other hand other people have the right to be safe from cigarette smoke and its harmful effects.

***Don't smoke when you are walking in the streets and do not throw cigarette butts on the sidewalk or roads.***

While you are smoking in public, remember you are causing other people to unconsciously breathe in nicotine smoke. Also you should be careful when smoking in public to make sure that you do not accidentally burn people with a lit cigarette. Also do not throw your burning cigarettes away in the street or from your car as they can cause fires and destroy people's property and life.

Don't throw cigarette butts on the streets. We can find many cigarette butts in front of stations and bus stops and it mars the beauty of a City's scenery. We need your cooperation and understanding to make this a nice city to give people a good and happy life.
