Volunteer Group

Inazawa City Hall, Telephone: 0587-32-1111 (ext 215) <http://www.iifa.jp>

GENERAL INFO

The Car Recycling Law will be enacted.

Starting on Jan.1, 2005, all car owners will be obliged to
pay a Car Recycling Fee.

hand over the unwanted car to dealers designated by the local municipality.

Since previous payment system remains, the car-recycling fee should be paid at the following
time for each car.

When you purchase a new car.

At the first roadworthy check for the car you now use.

If you abandon the car before its roadworthy check.

The recycling fee varies depending on the estimated value, the amount of filled flon, the
number of airbags and so on. You can see the actual sum offered by car companies or car
import dealers on their homepages.

- JAPANESE ENCEPHALITIS (Nihon-noen)

VACCINEES 3 years old to 7.5 years old

INTERVAL& FREQUENCY Stage one: Twice at an interval of 1 to 4 weeks

Stage one Additional: Once about one year later

(2) Group Vaccinations (SHUDAN SESSHU)

* Place: Inazawa City Community Healthcare Center (Inazawa-shi Hoken Center)

* Read "vaccination and child health" about children who can't take a vaccine.

* If your child has a chronic disease, or has ever had a convulsive fit, please obtain permission from your family doctor and have the doctor make a note on the lower part of the vaccination page of your Mother & Child Health Notebook.

*Before taking a vaccination, if your child has an infectious disease such as te-ashi-kuchi-byo, antherm subitum (sudden outbreak of a rash), or a cold or is taking medication. You must wait 2 weeks from his or her recovery (from his or her finishing all medicine) to take a vaccine.

And if your child has an infectious disease such as Measles which is thought to be subsiding, mumps or chicken pox, you must wait 1 month from his or her recovery.

For more information, please contact to our center.

- POLIO(Polio)

VACCINEES 3 months old to 7.5 years old

INTERVAL & FREQUENCY Twice at an interval of over 6 weeks

- TUBERCULOSIS SKIN TEST AND BCG(Tsuberukulin-kensa, BCG)

VACCINEES 4 months to 4 years old

HOW One injection for those whose results are negative after 48 hours from the TB skin test

*We will inform the parents of 4-month-old children individually of the date of the TB test and Health Check-up. (The TB test and the 4-month-old check-up are held on the same day.)

Because of the tuberculosis (TB) prevention law amendment, children younger than 6 months will be eligible to take a vaccine from April 1st 2005. After becoming 6 month old, the child will not able to take one. Children younger than 4 years old(whose birthday is from: Mar.31st 2001~ Oct. 31st 2004) who have not yet had a vaccine, should take one by Mar.2004. Please make a reservation at Inazawa City Community Healthcare Center by the day before the vaccination because there is a limit. Children will be given a vaccination in order of arrival.
